Enrollment and Disenrollment

Students will be enrolled within their first three business days of being detained in Juvenile Hall. The Senior Administrative Assistant will meet with the student to gather all necessary information. The student is responsible for giving accurate information to the best of their knowledge to help the process. This information, along with previous records and transcripts, helps identify any special education services and precise graduation requirements. The classroom teacher relies on all of this data to create a comprehensive program for each student.

During new student orientation, students are tested in the areas of reading and math. The curriculum and instruction will be matched to their abilities and intervention provided as appropriate in these areas. The content areas are then selected based on the student's grade level and graduation requirements. Information is then forwarded to the registrar.

In accordance with BCOE's Local Education Area Plan, an Individual Learning Plan (ILP) will be completed within two weeks of enrollment to ensure that the student makes progress toward grade promotion and graduation. The ILP will include a four-year academic plan. TMS transition staff will develop a transition plan within twenty calendar days of student enrollment.

Handbook Accessibility (print and web)

The Table Mountain School handbook is prominently posted on the school's website. Copies are always available in the lobby of the Butte County Juvenile Hall.

BEHAVIOR

School Rules, Discipline, Student Conduct and Suspension

Student Conduct – SP 5131

The County Superintendent believes that all students have the right to a public education in a positive environment free from disruptions which interfere with teaching and learning activities. In order to promote an atmosphere conducive to learning, it is imperative that the Butte County Office of Education, parents, students, teachers and the administration be cognizant of their responsibilities related to student conduct.

The County Superintendent or designee is responsible for prescribing rules for the behavior and discipline of the schools under its jurisdiction. The County Superintendent holds the certificated personnel responsible for the proper conduct and control of students under their charge within the behavioral guidelines. The Butte County Office of Education shall provide reasonable support to certificated personnel with respect to student conduct and discipline.

Discipline – SP 5144

Some of the following do not apply to Table Mountain School as the campus is located inside Butte County Juvenile Hall, yet notification is still required.

Notice to Parents/Guardians and Students

At the beginning of each school year, the principal or designee shall notify students and parents/guardians, in writing, regarding school rules related to discipline. Transfer students and their parents/guardians shall receive such notice upon enrollment.

Transfer of Suspension and Expulsion Disciplinary Records

The District/COE will forward student records, including suspension and/or expulsion disciplinary records, to other schools that have requested the records and in which the student seeks or intends to enroll. (FERPA, 34 CFR, Parts 99.7 and 99.34(a)(ii).)

Corporal Punishment

Corporal punishment shall not be used as a disciplinary measure against any student. The use of reasonable and necessary force by an employee to protect oneself or students or prevent damage to the Butte County Office of Education property shall not be considered corporal punishment for purposes of the policy. Students who do not meet their student responsibilities may be disciplined. TMS instructors reserve the right to make an individual or group decision. Instructional paraprofessionals can recommend discipline to be discussed and approved with a regular classroom instructor.

Discipline Actions

Acceptable discipline techniques include, but are not limited to:

Use of positive behavior supports;

Warnings and redirection of inappropriate behaviors to appropriate on task behaviors;

Teacher-Parent-Student conference;

Social-emotional learning instruction;

Instruction in prosocial behavior or anger management;

Use of restorative practices;

Referral to counseling;

Convening a Student Study Team.

Unacceptable discipline techniques:

Making threats, shouting;

Personal indignities, ridicule;

Revenge or temper explosions;

Assigning school tasks as punishment;

Reducing pupil's achievements in task assignments as punishment.

Examples may vary with each individual. The discipline should be directed toward eliciting desired behavioral changes. When disciplining a student, staff will complete the designated discipline form and present it to the appropriate student's unit. This should be done as soon as possible after disciplining a student. If a student must be removed from school and a discipline form cannot be filled out and submitted immediately, staff should verbally notify the unit of the incident and discipline action taken.

Suspension for Unruly or Disruptive Conduct

The following items are illegal to possess on school campus:

Firearms, knives of any kind (including pocket knives), or anything that could be used as a weapon;
Alcohol, tobacco, or drugs of any kind (prescription medicine, as well as over-the-counter medication, must be stored in the office). (ED Code 48900 c,h,i);

Matches, lighters, firecrackers, or other explosives;

Other disruptive, illegal, or dangerous objects.

Suspension

Suspension is a consequence for serious misbehavior. Students are excluded from school for a period of 1-5 days. Parents are notified as soon as possible by telephone and will receive written notification. The student may not be on or near any school grounds (within 600 feet in any direction) while they are suspended from school. Absence from school due to suspension is unexcused, and class work is made up at the discretion of each teacher. A teacher may suspend any student from his or her class for the day of, and the day following, any of the acts enumerated in Ed Code Section 48900.

The Superintendent or Principal may use his or her discretion to provide alternatives to suspension or expulsion to address student misconduct pursuant to Ed Code Sections 48900(v) & 48900.5.

Recommendation for Expulsion AR 5144.1

Unless the Principal or Associate Superintendent finds that expulsion is inappropriate due to particular circumstances, or that an alternative means of correction would address the conduct, the Principal, Associate Superintendent, or designee shall recommend a student's expulsion for any of the following acts:

Causing serious physical injury to another person, except in self-defense;

Possession of any knife as defined in Education Code Section 48915(g), explosive or other dangerous object of no reasonable use to the student;

Unlawful possession of any controlled substance, as listed in Chapter 2 (commencing with Section 11053) of Division 10 of the Health and Safety Code, except for the first offense for the possession of not more than one ounce of marijuana, other than concentrated cannabis;

Robbery or extortion;

Assault or battery, as defined in Penal Code Section 240 and 242, upon any school employee.

Mandatory Recommendation for Expulsion

The Principal, Associate Superintendent, or designee shall recommend that the County Superintendent expel any student found at school or at a school activity to be:

Possessing, as verified by a district employee, or selling or otherwise furnishing a firearm, unless the student had obtained prior written permission to possess the item from a certificated school employee, with the Principal or designee's concurrence;

Brandishing a knife as defined in Education Code Section 48915(g) at another person;

Unlawfully selling a controlled substance listed in Health and Safety Code Section 11053-11058;

Committing or attempting to commit a sexual assault or committing a sexual battery as defined in Penal Code Section 261, 266(c), 286, 288(a), or 289, or committed a sexual battery as defined in Penal Code Section 243.4;

Possessing an explosive as defined in 18 USC 921.

Upon finding that the student committed any of the above acts, the County Superintendent shall expel the student.

For all other acts and conduct for which a student is subject to discipline under Education Code 48900 through 48900.7 and which are not specifically listed or addressed under Education Code 48915(a) or 48915(c), a student may be recommended for expulsion where other means of correction are not feasible or have repeatedly failed to bring about proper conduct, or where due to the nature of the student's conduct violation, the presence of the student cause a continuing danger to the physical safety of the student or others. [E.C. 48915(b) and (e)]

The school administrator retains the right to amend this handbook for just cause. Parents/guardians will be given prompt notification in the event that changes are made.

Sexual Harassment

The County Superintendent is committed to maintaining an educational environment that is free from harassment. The County Superintendent prohibits sexual harassment of students by other students, employees, or other persons, at the school or at school-sponsored or school-related activities. The County Superintendent also prohibits retaliatory behavior or action against persons who complain, testify, assist or otherwise participate in the complaint process established pursuant to this policy and the administrative regulation.

Instruction/Information

The County Superintendent or designee shall ensure that all students receive age-appropriate instruction and information on sexual harassment. Such instruction and information shall include:

- 1) What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same gender;

Any school employee who observes any incident of sexual harassment involving a student shall report this observation to the principal or designee, whether or not the victim files a complaint.

In any case of sexual harassment involving the principal or any other employee to whom the complaint would ordinarily be made, the employee who receives the student's report or who observes the incident shall report to the non-discrimination coordinator or the Associate Superintendent.

The principal or designee to whom a complaint of sexual harassment is reported shall immediately investigate the complaint in accordance with administrative regulations. Where the principal or designee finds that sexual harassment occurred, they shall take prompt, appropriate action to end the harassment and address its effects on the victim. The principal or designee shall also advise the victim of any other remedies that may be available. The principal or designee shall file a report with the County Superintendent or designee and refer the matter to law enforcement authorities, where required.

ACADEMICS

Academic Policies

Regulations Regarding Grades/Evaluation of Student Achievement AR 2151

If a student misses a class without an excuse and does not subsequently turn in homework, take a test, or fulfill another class requirement, which they missed, the teacher may lower the student's grade for non-performance. Students with excessive unexcused absences (6 absences per semester) may be given a failing grade and not receive credit for the class(es). Schools that withhold class credit, for this reason, shall so inform the class and parents/guardians at the beginning of the semester or year.

Whenever it becomes evident to a teacher that a student is in danger of failing a course, the teacher shall arrange a conference with the student's parent/guardian or send the parent/guardian a written report. An incomplete is given only when a student's work is not finished because of illness or other excused absence. If not made up within one week, the incomplete will become an F.

Students in grades 7 through 12 must earn at least a 2.0 or C grade point average in order to participate in extra/co-curricular activities.

Teachers are encouraged to allow for trends in the quality of student work. When a student finishes a grading period doing high quality work that requires skills acquired throughout the grading period, low grades at the beginning of the grading period need not diminish the appropriate evaluation of the student's achievement. Similarly, high grades at the beginning need not compensate for a downward trend in achievement.

Academic Integrity

Table Mountain School expects all students to abide by ethical academic standards. Academic dishonesty—including plagiarism, cheating or copying the work of another, using technology for illicit purposes, or any unauthorized communication between students for the purpose of gaining advantage during an examination—is strictly prohibited. Table Mountain School's *Academic Integrity Policy* covers all school-related tests, quizzes, reports, class assignments, and projects, both in and out of class. The purpose of the policy is to prepare students for the reality created by the technology explosion, for the world of college and beyond, where cheating and plagiarism have dire consequences.

Plagiarism is not the same as cooperation or collaboration. Teachers often expect students to work on assignments collectively. This is appropriate, as long as those whose work is being presented are clearly relayed.

- **Collaboration** is to work together (with permission) in a joint intellectual effort.
- **Plagiarism** is to commit literary theft; to steal and pass off as one's own ideas or words, and to create the production of another. When you use someone else's words, you must put quotation marks around them and give the writer or speaker credit by citing the source. Even if you revise or paraphrase someone else's words, if you use someone else's ideas, you must give the author credit. Some internet users believe that anything available online is public domain. Such is not the case. Ideas belong to those who create and articulate them. To use someone else's words or ideas without giving credit to the originator is stealing.
- **Cheating** includes, but is not limited to, copying or giving an assignment to a student to be copied (unless explicitly permitted by the teacher). Cheating also includes using, supplying, or communicating unauthorized materials, including textbooks, notes, calculators, computers, or other unauthorized technology, during an exam or project.
- **Forgery or stealing** includes, but is not limited to, gaining unauthorized access to exams or answers to an exam, altering computer or grade-book records, or forging signatures for the purpose of academic advantage.

The determination that a student has engaged in academic dishonesty shall be based on specific evidence provided by the classroom teacher or another supervising professional employee, taking into consideration written materials, observation, or information from others. Students found to have engaged in academic dishonesty shall be subject to disciplinary as well as academic penalties, as outlined below.

Range of Possible Consequences		
Copying class work or homework	Zero on assignment Parent notification	Office Discipline Referral

Plagiarizing or cheating on an Exam or assignment	Conference with principal / student / teacher	Office Discipline Referral
Forgery or stealing	Conference with principal / student / teacher	Office Discipline referral

State and Local Assessments

Statewide Testing Notification

California students take several mandated statewide tests. These tests provide parents/guardians, teachers, and educators with information about how well students are learning and becoming college and career ready. The test results may be used for local, state, and federal accountability purposes.

The California Assessment of Student Performance and Progress (CAASPP) tests consist of the following:

- **Smarter Balanced Assessment Consortium Assessments**
The Smarter Balanced computer adaptive assessments are aligned with the California State Standards. English language arts/literacy (ELA) and mathematics tests are administered in grades three through eight and grade eleven to measure whether students are on track to college and career readiness. In grade eleven, results from the ELA and mathematics assessments can be used as an indicator of college readiness.
- **California Science Tests (CAST)**
The computer-based CAST measures students' achievement of the California Next Generation Science Standards (CA NGSS) through the application of their knowledge and skills of the Science and Engineering Practices, Disciplinary Core Ideas, and Crosscutting Concepts. The CAST is administered to all students in grades five and eight and once in high school (i.e., grade ten, eleven, or twelve).

- **California Alternate Assessments (CAAs)**
Only eligible students—students whose individualized education program (IEP) identifies the use of alternate assessments—may participate in the administration of the CAAs. Test examiners administer the computer-based CAAs for ELA, mathematics, and science one-on-one to students. Students in grades three through eight and grade eleven will take the CAA for ELA and mathematics. Test items developed for ELA and mathematics are aligned with the CCSS and are based on the Core Content Connectors.

Students in grades five and eight and once in high school (i.e., grade ten, eleven, or twelve) will take the CAA for Science. The CAA for Science embedded performance tasks are based on alternate achievement standards derived from the CA NGSS. Students taking the CAA for Science will take three embedded performance tasks.

Pursuant to California Education Code Section 60615, parents/guardians may annually submit to the school a written request to excuse their student from any or all of the CAASPP assessments.

English Language Proficiency Assessments for California

The ELPAC is aligned with the 2012 California English Language Development Standards. It consists of two separate English Language Proficiency (ELP) assessments: one for the initial identification of students as English learners and the other for the annual summative assessment to identify students' English language proficiency level and to measure their progress in learning English.

Physical Fitness Test

The physical fitness test for students in California schools is the FitnessGram®. The main goal of the test is to help students in starting lifelong habits of regular physical activity. Students in grades five, seven, and nine take the fitness test.

High School Equivalency Test (HiSET)

To take the HiSET exam in California, students must be California residents or a member of the armed forces assigned to duty in California and have not completed high school and meet the following eligibility requirements:

 - Do not have a realistic chance of completing the requirements for a high school diploma.
 - Do have adequate academic skills to successfully complete the HiSET exam.

- Understand the options available regarding acquisition of a high school diploma, the high school equivalency certificate, or the high school proficiency certificate and the requirements, expectations, benefits and limitations of each option.
- Have sufficient time left to complete the entire HiSET exam; however, if released before the test is completed, you may complete testing at an authorized testing center.

Local Assessments

TMS students participate in local assessments upon enrollment and again within 90 days to assess students' growth and provide intervention. Local assessments include reading, writing, and mathematics. Local assessments are part of the educational program and are required to ensure educational access and benefit.

Grades and Repeating Classes

Grading

Grades are one of the assessment tools used to report to parents/guardians the student's progress in all subject areas. Grades are based on standards of performance designated for each grade level. Grades are based on points earned for daily assignments, quizzes, projects and tests. Grades will reflect the following percentages of points:

95% to 100%	=	A	90% to 94%	=	A-
87% to 89%	=	B+	83% to 86%	=	B

Students who receive a "Pass" grade will acquire the appropriate semester units of credit for the course, and the grade will not be counted in determining class rank or honors. Students who receive a "Fail" grade will not receive credit for taking the course. Students shall be graded Pass/Fail for classes in which they serve as student aides unless predetermined goals and objectives related to specific subject knowledge are on file and have been approved by the Principal or designee.

Repeated Classes

With the approval of the Principal or designee, a student may repeat a course in order to raise their grade. The student shall receive credit only for taking the course once.

SAFETY

Data and Student Privacy

The Family Educational Rights and Privacy Act (FERPA)

(20 U.S.C. § 1232g; 34 CFR Part 99)

Rights under FERPA for Butte County Office of Education Schools

The Family Educational Rights and Privacy Act (FERPA) affords parents and students who are 18 years of age or older ("eligible students") certain rights with respect to the student's education records. These rights are:

- 1) The right to inspect and review the student's education records within 45 days after the day the Butte County Office of Education (BCOE) receives a request for access.

Parents or eligible students who wish to inspect their student's or their education records should submit to the school principal, or appropriate school official, a written request that identifies the records they wish to inspect. The school official will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

- 2) The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

Parents or eligible students who wish to ask the BCOE to amend their student's or their education record should write the school principal, or appropriate school official, clearly identify the part of the record as requested by the parent or eligible student, and specify why it should be changed. If the school decides not to amend the record as requested by the parent or eligible student, the school will notify the parent or eligible student of the decision and of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.

- 3) The right to provide written consent before the school discloses personally identifiable information (PII) from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception, which permits disclosure without consent, is disclosure to school officials with legitimate education interests. The criteria for determining who constitutes a school official and what constitutes a legitimate educational interest must be set forth in the school's or school district's annual notification for FERPA rights. A school official is a person employed by BCOE in an administrative, supervisory, academic, or support staff position; a person or company with whom BCOE has contracted including but not limited to attorneys, auditors, information technology systems providers and their staff, emergency communication systems personnel, or outside institutions involved in student learning experiences including but limited to identified systems such as, Google Apps for Education, Microsoft Office 365, Discover Education, Typing Pal, or i-Ready. A school official has a legitimate education interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the school discloses education records without consent to officials of another school or school district in which a student seeks or intends to enroll, or is already enrolled if the disclosure is for purposes of the student's enrollment or transfer. [NOTE: FERPA requires a school or school district to make a reasonable attempt to notify the parent or student of the records request unless it states in its annual notification that it intends to forward records on request or the disclosure is initiated by the parent or eligible student.]

- 4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the BCOE to comply with requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, DC 20202

See the list below of the disclosures that elementary and secondary schools may make without consent.

FERPA permits the disclosure of PII from students' education records, without the consent of the parent or eligible student, if the disclosure meets certain conditions found in § 99.31 of the FERPA regulations. Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory

information, and disclosures to the parent or eligible student, § 99.31 of the FERPA regulations requires the school to record the disclosure. Parents and eligible students have a right to inspect and review the record of disclosures. A school may disclose PII from the education records of a student without obtaining prior written consent of the parents or the eligible student.

- To other school officials, including teachers, within the educational agency or institution whom the school has determined to have legitimate educational interests. This includes contractors, consultants, volunteers, or other parties to whom the school has outsourced institutional services or functions, provided that the conditions listed in § 99.31(a)(1)(i)(B)(1) – (a)(1)(i)(B)(3) are met. (§ 99.31(a)(1))
- To officials of another school, school system, or institution of postsecondary education where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer, subject to the requirements of § 99.34. (§ 99.31(a)(2))
- To authorized representatives of the U.S. Comptroller General, the U.S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as the State Educational Agency (SEA) in the parent or eligible student’s State. Disclosures under this provision may be made, subject to the requirements of § 99.35, in connection with an audit or evaluation of Federal- or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf, if applicable requirements are met. (§§ 99.31(a)(3) and 99.35)
- In connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid. (§ 99.31(a)(4))
- To State and local officials or authorities to whom information is specifically allowed to be reported or disclosed by a State statute that concerns the juvenile justice system and the system’s ability to effectively serve, prior to adjudication, the student whose records were released, subject to § 99.38. (§ 99.31(a)(5))
- To organizations conducting studies for, or on behalf of, the school, in order to:
 - a. develop, validate, or administer predictive tests;

(20 U.S.C. § 1232g(b)(1)(L))
- To the Secretary of Agriculture or authorized representatives of the Food and Nutrition Service for purposes of conducting program monitoring, evaluations, and performance measurements of programs authorized under the Richard B. Russell National School Lunch Act or the Child Nutrition Act of 1966, under certain conditions. (20 U.S.C. § 1232g(b)(1)(K))

Emergency Procedures

Butte County Office of Education is committed to providing safe, secure, and nurturing environments for students, families, and employees. BCOE last revised its Comprehensive School Safety Plan for all BCOE schools/programs in 2022 and has adopted this plan for the 2022/2023 school year. The plan includes all state mandated components to be included in a school safety plan, an extensive incident command and response section, tactical considerations with first responder input, and is referenced in the annual school accountability report card prepared pursuant to Education Code Sections 33126 and 35256. The Comprehensive School Safety Plan is reviewed, updated, and adopted by each school within BCOE, each year, as part of BCOE’s overall school safety program.

Butte County Office of Education welcomes community input and always looks for ways to improve the safety of BCOE schools. Members of the community may feel free to contact the school to share thoughts and suggestions on identified ways to improve school safety.

Annually, BCOE school staff complete online trainings in required areas.

At a minimum, all BCOE policies and procedures comply with all state and federal laws related to:

Documenting immunizations of new students

Requiring proof of tuberculosis screening for staff at time of hire and every four years thereafter

Requiring cleared fingerprints at time of hire and receiving subsequent arrest notifications from Department of Justice prior to hire

Developing emergency-response procedures

Training for staff in emergency response, including appropriate first responder training or its equivalent and prevention strategies regarding contact with blood-borne pathogens

Assuring staff are trained and implement mandated child abuse reporting that conforms to current law

Training and procedures are in place to assist with the prevention of acts of bullying and cyberbullying including the availability of the California Department of Education online training module to all employees who interact with students or an equivalent

The adoption of a suicide prevention policy and training for staff

Assuring that school buildings meet Fire Marshall approval and have been evaluated by structural engineers to present no substantial seismic safety hazard to the extent required by the education code for building requirements

Establishing the school as a drug, alcohol and tobacco free workplace

Maintaining annually reviewed Site Safety Plans

Compliance with the Americans with Disabilities Act

For visitors and staff, it may be required by Juvenile Hall staff that tattoos be covered with clothing if found offensive or could possibly incite a response.

Comprehensive School Safety Plan

All BCOE schools have in place a Comprehensive School Safety Plan for school safety, which is available for review by parents and students at the school site. Additionally, all BCOE schools report on the status of the school safety plan, including a description of its key elements in the annual School Accountability Report Card. School Safety Plans are to be implemented throughout the year and are to be reviewed by all school site councils by March of each school year. A copy of the Comprehensive School Safety Plan is available for review at the school office.

Parent Volunteers and Visitors

Parent volunteers are not allowed to enter the secure facility. Community volunteers provide some services during school hours, but generally support students after school hours. Butte County Juvenile Hall staff facilitate visits with students/parents/family members on evenings and weekends or by special arrangement as needed.

Field Trips and Transportation of Students

School related field trips must be approved by Butte County Juvenile Hall staff. Transportation is provided by Butte County Juvenile Hall staff for all student field trips and events that occur off site.

Procedures for Student Injury

The Butte County Juvenile Hall has a nurse on site full time to attend to student injuries. Students are transported by Butte County Juvenile Hall staff if additional medical attention is necessary.

Annual School Climate Survey

School climate is measured annually at TMS using a research-based survey administered through the Positive Behavior and Interventions and Supports (PBIS) system. The PBIS survey includes both student and staff surveys.

The Student School Climate Survey: Middle/High is an anonymous survey used to identify school climate issues within the school. Parents/guardians of middle/high school students notify the school office in writing, if they opt their student out of the survey.

The Staff School Climate Survey is administered to all staff anonymously, with identifying information limited to job title and location. The staff survey is used to identify school climate issues within the school.

Data from both the student and staff survey are collected and analyzed annually to inform decision making regarding improvements in school climate.
